Transformers Academy, BC, Canada

Project Name: AI generated Course Builder

Responsibilities:

- Conducted competitor analysis to identify industry trends and best practices for use in future projects.
- Led design initiatives that improved user retention by 60% through gamification strategies and responsive design for web and mobile platforms on Figma.
- Ensured designs met WCAG 2.0 standards for accessibility, consistent design, typography, and user-centered design enhancing user experience.
- Collaborated with cross-functional teams such as web developers and content writers for seamless implementation of designs.

Key Skills: UI/UX Design, Design thinking, prototyping, wireframing

Project Name: Transformers Academy

Responsibilities:

- Supported website redesign efforts, resulting in improved site navigation and overall user experience.
- Assisted in designing marketing materials, resulting in increased brand recognition and customer engagement.
- Aided with photo editing tasks, ensuring professional presentation of imagery across various platforms.

Key Skills: Web Design, Adobe CS, Adobe Photoshop, Canva, WIX

08/21 -
11/22

Front End Developer

Accenture, MH, India

Project Name: The Hartford

Responsibilities:

- Worked closely with UI/UX designers and development teams to integrate user interface solutions, ensuring technical feasibility, and enhancing user engagement by 75%.
- Utilized InVision for prototyping, contributing to the improvement of communication between stakeholders and the design team.
- Engineered and maintained reusable UI component libraries in React and Angular applications, enhancing development efficiency.

Unit Testing, A/B testing

Agile Method (Scrum, Kanban)

01/21 - 08/21

- Played a key role in front-end projects that led to a 20% uplift in user conversion rates.

Key Skills: UX/UI Design, InVision, HTML, CSS, JavaScript, Angular, DuckCreek Policy Developer

Software Engineer

Netlink, MH, India

Project Name: Subscription Platform Management

Responsibilities:

- Developed reusable components that significantly reduced development effort on multiple projects.
- Provided technical guidance to junior developers, fostering a positive team environment, and promoting professional growth.
- Enhanced user experience with intuitive interface design and responsive web applications.
- Developed scalable and maintainable code, ensuring long-term stability of the software.

Key Skills: Angular, HTML, SCSS, AWS, GIT, REST API Integration, OutSystems

09/17 - 01/21

Software Engineer

Zeus Learning, MH, India

Project name: Big Ideas Learning, Nat Geo, Vista Higher Learning

Roles and Responsibility:

- Creating storyboards for E-learning courses.
- Developed a responsive design system and reusable components with SCSS and Angular.

Key Skills: HTML, XML, CSS, JavaScript, Angular

Project Name: Cengage Learning

Roles and Responsibility:

- Developed user-friendly e-learning platforms with interactive and data-driven features.
- Creating designs for e-learning screens and coded to execute simulation.

Key Skills: HTML, XML, CSS, JSON, JavaScript

Education

2023-12

Post Graduate Certificate: User Experience Design

Humber College - Toronto, ON

2017-05

Bachelor of Science: Information Technology

University of Mumbai - Mumbai, MH
